

Our light duty commercial compressors are ideal for shallow work. Lightweight, low-cost and portability are the main reasons for choosing a light duty compressor. The Nuvair BX Series two-stage pump, with a 8.5 to 11.7 hp Honda gas engine, produces 21-28 CFM @ 160 psi. With a weight range of 210-230 lb, this is a portable compressor with great air delivery. Diver air filtration is not included with this compressor but is an option to produce Grade D air for breathing

FEATURES

- 2-stage compressor
- Remote intake
- FDA food grade synthetic Nuvair 455 oil
- Pressure activated throttle
- Oil sight gauge

OPTIONS

- Breathing air filtration
- CO analyzer
- Air test kit
- Dive hose
- Volume Tank
